Black History**

IT'S GENERATIONAL! NO BRAG, JUST FACTS! Flying High by Chase Sawyer

I'm Chase Sawyer, and I'm excited to share a bit about what I've been up to.

- To start off, I accomplished my first solo flight as a Student Pilot in training. It consisted of three takeoffs and landings to a full stop followed by a cutting ceremony of my shirt to signify the student doesn't need their instructor anymore. I was able to accomplish this in 11.9 hours!
- Secondly, I have been awarded with the Brothers of Atlanta Scholarship, and Outstanding Student Award at my flight school for exceptional performance after only being there for a year!
- I've been recommended to the Chief Pilot at Delta Airlines here in Atlanta. I've had the opportunity to network with many different pilots and most importantly the head of pilot recruitment in hopes to secure a job in the future.
- I've had the opportunity to see Tyler Perry at the airport as I was going to preflight the airplane and he gave his words of encouragement. I've been able to go on Delta charter flights to different airports while being a part of the Organization of Black Aerospace Professionals.
- Shift of gears to academics, I am on the A's and B's Honor Roll. I've received various ribbons in JROTC for my outstanding academic performance. I also was admitted into the French Honor Society starting January of 2025.

**If you have a WIN to share, email: Vparkcog@gmail.com
for instructions on what we need in order for you to be included.**

“PLANS FAIL FOR LACK OF COUNSEL, BUT WITH MANY ADVISERS THEY SUCCEED.” ~ PROVERBS 15:22

JANUARY IS...

[Health and Wellness Alert!!!](#)

The world of healthcare is a forever changing dynamic. As new challenges in healthcare arise, we are continually faced with combating those challenges to produce better patient outcomes. From traditional medicine to home remedies and even more advanced therapies, our healthcare delivery system continues to evolve. In 2025, according to Forbes magazine, we will continue to see a shift towards predictive measures as systems adapt to cope with aging demographics, population booms in the developing world and financial challenges caused by economic uncertainty. Advancements in artificial intelligence (AI), remote medicine (Telemedicine) will continue its push in shaping healthcare planning and delivery.

What Does This Mean For Us?

Many are predicting AI will play a major role in providing personalized care to meet “individualized” needs. Just think, a plan tailored just for YOU! And with the use of AI, the reach can be far and wide, according to Forbes magazine. Patients who are not able to engage with Providers due to demographics will have an opportunity to interact with healthcare professionals. Planning and response to future pandemics, changes in climate, and other health related anomalies can potentially be impacted by AI.

So, as we embrace 2025, it is imperative that we keep our eyes and ears open to the possibility of such technology being at the forefront of our healthcare system. For more information on trends that will transform medicine, please visit
